submissions:

5 December 2021

Message from the Guest Editor

This Special Issue “Composting in the Framework of Circular Economy” aims to present the recent advances of composting as a strategy to fulfil the objectives of circular economy. Topics include, but are not limited to:

- Co-composting of different organic wastes, especially process performance and the quality of final compost;
- Composting for the removal of emerging contaminants in organic wastes;
- Decentralized composting: pros and cons, process experiences;
- Environmental impact of composting processes, especially gaseous emissions.

an Open Access Journal by MDPI

Editor-in-Chief

Department of Drug Science and
Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

Processes (ISSN 2227-9717) provides an advanced forum for process/system-related research in chemistry, biology, material, energy, environment, food, pharmaceutical, manufacturing and allied engineering fields. The journal publishes regular research papers, communications, letters, short notes and reviews. Our aim is to encourage researchers to publish their experimental, theoretical and computational results in as much detail as necessary. There is no restriction on paper length or number of figures and tables.

Author Benefits

Open Access:— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [CAPlus / SciFinder](#), [Inspec](#), and many [other databases](#).

Rapid Publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 11.6 days after submission; acceptance to publication is undertaken in 3.4 days (median values for papers published in this journal in the first half of 2021).
