Message from the Guest Editor

Dear Colleagues,

As guest editor, I would like to welcome you to the Special Issue that the journal *Recycling* will publish with selected papers from the **4th International Congress on Water, Waste and Energy Management (WWEM-18)**, which was held at the University Complutense of Madrid from 18–20 July, 2018.

Our aim is to encourage scientists to publish experimental and theoretical research relating to innovation processes, tools and methodologies relating to resource recycling. We will highlight the following topics: chemical recycling, waste recycling, waste processing technologies, water recycling, water and wastewater treatment Processes, and effluent treatment and recycling.

Prof. Joaquín R. Dominguez

Guest Editor
