#### Dr. Pedram Ghamisi

1. Helmholtz-Zentrum Dresden-Rossendorf (HZDR), Helmholtz Institute Freiberg for Resource Technology, 09599 Freiberg, Germany 2. Institute of Advanced Research in Artificial Intelligence (IARAI), 1030 Vienna, Austria

Deadline for manuscript submissions: **20 June 2024** 

mdpi.com/si/117255

#### Dear Colleagues,

This Special Issue focuses on both supervised and unsupervised deep/machine learning models for converting EO data into valuable information, meaningful patterns for modeling, and the prediction of upcoming cycles of natural hazards. Therefore, we aim to discover and highlight new deep/machine learning models for EO data analysis to gain a better understanding of natural hazards, their environmental effects, risk assessment (and vulnerability), disaster risk reduction, climate adaptation, disaster resilience, and hazard recovery.

This Special Issue invites submissions that may include, but are not limited to, the following natural hazards:

- Landslides and Submarine landslides
- Volcanoes
- Snow avalanche
- Glaciers
- Earthquakes and tsunamis
- Storms
- Land subsidence
- Droughts
- Extreme temperatures
- Floods
- Wildfires/bushfires
- Post-fire debris flow
- Deforestation
- Soil, gully, and piping erosion

### **Editor-in-Chief**

#### Dr. Prasad S. Thenkabail

Senior Scientist (ST), U. S. Geological Survey (USGS), USGS Western Geographic Science Center (WGSC), 2255, N. Gemini Dr., Flagstaff, AZ 86001, USA

#### Message from the Editor-in-Chief

*Remote Sensing* is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

### **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

**Journal Rank:** JCR - Q1 (*Geosciences, Multidisciplinary*) / CiteScore - Q1 (*General Earth and Planetary Sciences*)
