### Message from the Guest Editors

Dear Colleagues,

This Special Issue focuses on recent developments on insurance, finance and risk management. Topics include stochastic models in non-life insurance, risk management, life, health and pension insurance, risk and stochastic control, statistical and computational methods, financial theory and practice and quantitative finance. We encourage speakers at the 10<sup>th</sup> Conference in Actuarial Science and Finance on Samos to submit their papers to the Special Issue. Selected papers from this conference, subject to normal review process, will be included in this Special Issue. This Special Issue will provide a forum for state-of-the-art results on the topics and enhance the research on actuarial science and mathematical finance.

### Keywords:

- Life, Health and Pension Insurance
- Non-Life Insurance

## Message from the Editor-in-Chief

*Risks* is published in Open Access format – research articles, reviews and other content are released on the internet immediately after acceptance. Specifically, *Risks* welcomes contributions that

- contribute with insight, outlook, understanding and overview, no matter how simple they are;
- show creativity in pedagogical tricks and techniques;
- help the transfer of theoretical research to public and private application;
- show responsibility for societal impact.

The scientific community and the general public have unlimited free access to the content as soon as it is published.

## Author Benefits

**Open Access:** free for readers, with **article processing charges (APC)** paid by authors or their institutions.

**High visibility:** indexed within **Scopus**, **ESCI (Web of Science)**, **EconLit**, **EconBiz**, **RePEc**, and **other databases**.

**Journal Rank:** CiteScore - Q1 (*Economics, Econometrics and Finance (miscellaneous)*)
