Metamaterial-Based and Bioinspired Technologies for Sensor Applications

Guest Editors:

Dr. Saman Farhangdoust

Dr. Sourav Banerjee

Dr. Sadegh Mehdi Aghaei

Dr. Mohammadhossein Dabaghi

Deadline for manuscript submissions:
closed (30 November 2022)

Message from the Guest Editors

Dear Colleagues,

This Special Collection aims to explore recent advances and developments in the field of metamaterials and bioinspired sensing technologies and methods applicable to health monitoring systems, and provides a foundation for the design of a new class of bioinspired and metamaterial-based membranes/substrates that can improve the sensitivity and stretchability of sensors. It is intended to cover recent theoretical and experimental achievements in piezoelectric, electromagnetic, and triboelectric applications as well as other new or combinational concepts. The stretchability and sensitivity of wearable and flexible sensors at varying size scales and for different fabrication contents and characteristics may also be addressed. We invite researchers to submit original research, letters and review articles.

For more information on the issue, please visit the Special Issue website at:

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Chemistry, Analytical*) / CiteScore - Q1 (Instrumentation)
