## Soft Robotics and Sensors

Guest Editor:

**Dr. Simeone Dussoni**

Istituto Italiano di Tecnologia,  
Genoa, Italy

Deadline for manuscript  
submissions:

**closed (30 November 2022)**

### Message from the Guest Editor

Dear Colleagues,

It may seem that there is a proliferation of topics in our ever-growing world, and one of the most exciting fields to work in is soft robotics. We, the dreamers, are preparing for a future in which robots are like living organisms, with a wide range of capabilities and shapes, which have become possible thanks to flexible and stretchable devices. Moreover, soft robots can be natively compliant and helpful in lot of situations, from emergency scenarios and exploration of the solar system to companion robotics.

For this Special Issue, we encourage submissions from researchers in the most different fields. I approached robotics after many years as a particle physics researcher, so I am really interested in outside-the-box thinking and really curious to read the most exciting research from everyone out there. I will not give a list of topics, since it could be exclusive; I will just let your imagination fill in the blanks: if you think your research may be of interest, just submit and share it, and let's see what happens!

Dr. Simeone Dussoni

## Editor-in-Chief

### **Prof. Dr. Vittorio M. N. Passaro**

Dipartimento di Ingegneria  
Elettrica e dell'Informazione  
(Department of Electrical and  
Information Engineering),  
Politecnico di Bari, Via Edoardo  
Orabona n. 4, 70125 Bari, Italy

## Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

## Author Benefits

**Open Access :** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Instruments & Instrumentation*) / CiteScore - Q1 (*Instrumentation*)
