Message from the Guest Editor

Dear Colleagues,

During the last couple of decades sensor technologies have seen a revolutionary advancement in new platforms influenced by both fabrication approaches yielding very small sensors as well as new mechanisms to monitor a wide range of external parameters. This sensor revolution has encouraged investigators to explore new approaches for integrating sensors into a variety of platforms to monitor a wide range of phenomenon. Based on these advancements, this special issue of *Sensors* seeks to compile a collection of fundamental research papers representing state of the art in sensor systems embedded into a variety of platforms. The focus here is both on the development of the sensor technology as well as its integration into the platform.

Orabona n. 4, 70125 Bari, Italy

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Instruments & Instrumentation*) / CiteScore - Q1 (*Instrumentation*)
