

Dear Colleagues,

As Editor-in-Chief of *Separations*, I am pleased to announce the winner of the *2017 Separations Travel Award*:

**Pierre-Hugues Stefanuto**, postdoc fellow at Dartmouth College, whose research focuses on the development of comprehensive two-dimensional GC (GC×GC) coupled both to low and high resolution mass spectrometry (LR(HR)TOFMS) methods for the analyses of volatile organic compounds. He is planning to present his *oral presentation* «Identifying novel biomarkers for the rapid diagnosis of invasive aspergillosis using GC×GC-TOFMS» and *poster presentation* «Identifying infectious agents from lung transplant patients using GC×GC-TOFMS» at the 41th International Symposium on Capillary Chromatography and 14th GC×GC Symposium. The award consists of 800 Swiss Francs to attend this conference. Please join me in congratulating Dr. Stefanuto on his award!

Frank L. Dorman,

Editor-in-Chief

## 2017 TRAVEL AWARD WINNER

*Separations* (ISSN 2297-8739) is an international open access journal, which provides an advanced forum for separation and purification science and technology in all areas of chemical, biological and physical science, published quarterly online by MDPI.

Please find more information on *Separations* here: [mdpi.com/journal/separations](http://mdpi.com/journal/separations).
