Environmental Pollution & Climate Change: Responses of Plant Organisms to Harsh Environments

Guest Editors:

Prof. Dr. Marcello Iriti

Department of Biomedical,
Surgical and Dental Sciences,
Università degli Studi di Milano,
20133 Milan, Italy

Dr. Georgios Liakopoulos

Laboratory of Plant Physiology
and Morphology, Department of
Crop Science, Agricultural
University of Athens, 118 55
Athens, Greece

Dr. Eleni Tani

Laboratory of Plant Breeding and
Biometry, Department of Crop
Science, Agricultural University of
Athens, Iera Odos 75, 11855
Athens, Greece

Message from the Guest Editors

Potential topics include, but are not limited to:

- Global change biology
- Air and soil pollution
- Tropospheric ozone
- Xenobiotics
- Heavy metals
- Biogenic volatile organic compounds (BVOCs)
- Secondary metabolism and metabolites
- Chemical ecology
- Ecotoxicology
- Loss of biodiversity

Message from the Editor-in-Chief

Stresses is an open access international journal publishing top quality research covering all aspects of how humans, animals, plants, algae, fungi, bacteria, and viruses respond to abiotic and biotic stresses. The thinking behind *Stresses* is substantially inspired by the pioneering studies on the effects and responses to various stressors performed by the eminent scientist Hans Selye. Submissions from basic and applied research are welcome, as long as they are based on a clearly defined mechanistic hypothesis. Review manuscripts are encouraged, but they must be a critical review of existing literature and not just a summary. All submitted manuscripts will be subjected to a thorough peer-reviewing process.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within **Scopus** and **other databases**.

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 3 days (median values for papers published in this journal in the second half of 2023).
