Message from the Guest Editors

Dear Colleagues,

In the emerging era of Sustainable Development Goals (SDGs) that the UN calls for, decision making has become complicated and turned into an art, resulting from the involvement of multiple stakeholders or criteria with conflicting interests. For example, when we look at stakeholders, they may include government, academia, industry, and even more. When viewing the criteria, we should balance the dimensions of technology, society, economics, environment, and welfare, etc. Multiple criteria decision making (MCDM) is a powerful tool in operational research to find the compromised solution in complex scenarios toward sustainability. As we are halfway to achieving the UN SDGs, this Special Issue expects to see how international scholars use the MCDM tool to solve any case of the 17 SDGs suggested by the UN. These efforts will develop an insight or pathway supported by MCDM techniques, leading us to a better sustainable world by resolving conflicting objectives/criteria for those we face nowadays.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
