Deadline for manuscript
submissions:

31 December 2024

Message from the Guest Editor

Dear Colleagues,

Sustainable production of food, fodder and energy is of critical importance to achieve food security, as there is an unprecedented rise in the global population which has increased the demands on the finite land base. This calls for concerted efforts from all stakeholders including farmers, advisory services, researchers and policy makers to facilitate the adoption of environmentally friendly farming practices without compromising food, fodder and energy production.

This Special Issue, 'Land Management and Sustainable Agricultural Production 2nd Edition' aims to be platform where scholars from relevant fields could share their high-quality and original manuscripts focusing on cropping systems, crop rotations, agroforestry and other relevant production systems that promote efficient resource use (radiation, nutrients and water), and food, fodder and energy production without adversely impacting the environment. Manuscripts that highlight enhanced environmental performance of ecosystem services and sustainable land management practices and production systems with the use of innovative knowledge transfer tools and activities are also welcome.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
