Message from the Guest Editors

Dear Colleagues,

In the past three decades, ESG (environmental, social and governance) has become an important investment and management principle increasingly embraced by business and financial operations around the world. Morningstar, a leading financial service company, reported that as of 2020, the assets under management in funds that adhere to ESG principles have surpassed USD 1 trillion for the first time in history. While interest in ESG from business and investors have surged, the ESG principle itself and the accompanying practices bring about unresolved puzzles and contentious debates, calling for academic scrutiny from researchers. There is also an urgent need for practitioners to better understand and master ESG-related issues, which can take a heavy toll on corporate financial performance. In this Special Issue, we are interested in publishing analytical, methodological and empirical studies with the potential to advance both the theory and practice of ESG in a global setting.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
