Deadline for manuscript submissions:
closed (15 December 2020)

Message from the Guest Editors

Earthen built heritage should be protected for its inherent values as green architecture and as a sign of identity of our common past, as well as for being a clear example of sustainability for future architecture. However, this earthen architecture is exposed to natural threats (floods, landslides, earthquakes, wind, climate change, etc.), social risks (abandonment, social discredit, demographic pressure, etc.), and anthropic dangers (human error, negligence, lack of protection and maintenance, etc.). In turn, transformation dynamics such as replacement or use of incompatible techniques and materials have given rise to a need for scientific examination and the implementation of conservation, intervention, and restoration strategies to highlight and take into consideration the inherent sustainability of this architecture. This Special Issue will provide an opportunity for a comprehensive examination of the protection and conservation of this earthen vernacular and monumental architectural heritage, and of the sustainable development linked to this protection.

an Open Access Journal by MDPI

Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
