Message from the Guest Editors

This Special Issue focuses on:

- all atmospheric, hydrologic, geologic and geomorphologic hazardous natural phenomena that potentially affect human life and activities in urban areas,
- technological hazards such as salinization, desertification, fires, water and soil pollution/degradation, land use changes, climate changes, waste, civil disturbances, dam failure, hazardous materials incidents, pipelines, radiological events and transportation in urban areas.
- mapping, hazard and risk assessment, prevention, protective actions,
- hazard treatment, risk management technology, land use planning,
- innovative technologies, concepts and approaches for hazard mitigation, preparedness, response, and recovery.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
