Sustainable E-learning and Education with Intelligence—2nd Edition

Guest Editor:

Prof. Dr. Hao-Chiang Koong Lin

Department of Information and Learning Technology, National University of Tainan, Tainan, Taiwan

Deadline for manuscript submissions:
30 September 2024

Message from the Guest Editor

Dear Colleagues,

Education provides the best channel of inheritance for mankind's sustainable cultivation of talents. In recent years, extensive research on educational technology has been conducted. Coupled with the COVID-19 period, distance learning and e-Learning have become important trends, and various platforms, applications, autonomous learning, and guidance strategies have become significant topics of interest. In addition, the application of artificial intelligence in education and learning has also received extensive attention from the research community, with the purpose of applying smart technology in order to enhance learning outcomes. Therefore, this Special Issue will address the following topics (not limited):

- E-Learning
- Education Technology
- Human Resources and Training
- Distance Learning
- Artificial Intelligence
- AI in Education
- Intelligence Tutoring System
- Affective Computing and Analysis
- Emotions in Learning
- Self-paced Learning (Self-regulated and Self-directed Learning)

Special Issue

Editor-in-Chief

Prof. Dr. Marc A. Rosen
Faculty of Engineering and Applied Science, University of Ontario Institute of Technology, Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.
Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
