Message from the Guest Editor

Dear Colleagues,

Ethics education is fundamental to the creation of an ethical climate in the workplace.

Previous research has demonstrated that learning experiences predict career-related self-efficacy, outcomes expectations and interests which, in turn, influence career goals and behaviors. People with higher educational development can show more confidence in their academic skills, which can potentially influence their career expectations. Individuals face educational barriers of varying degrees to their pursuit of particular options.

This special issue concentrates on the innovation in education in business ethics and vocational behavior. Papers are invited on any topic related to educational factors that can affect the ethical maturity of business students, the role of learning experiences, etc. Possible topics include, but are not limited to:

- Business ethics
- Business ethics courses
- Career development
- Career exploration
- Corporate social responsibility
- Ethics education
- Innovation in education
- Learning experiences
- Social cognitive career theory
- Vocational development

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits
