Message from the Guest Editors

Dear Colleagues,

Microentrepreneurs are typically under-resourced and underserved. though central socio-economic to functioning and equitable economic development. The aim of this issue is to encourage time-sensitive research on how microentrepreneurs are being affected by, and attempting to recover from the business constraints imposed by the COVID-19. Through this collaboration with an open source journal, we hope to widely disseminate new knowledge in this topic among academics, industry practitioners, and policy-makers so that evidence-based strategies can better be developed to assist people and communities toward recovery.

As P1tLab continues to engage with tourism microentrepreneurs, we have observed that they continue to make adjustments to their entrepreneurial journeys in reaction to the ever-evolving business conditions and market trends of these post-pandemic times; and as a result we've reopened the call for papers to the special so that other researches may have the opportunity to disseminate their latest research possibly capturing these phenomena.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international Open Access journal which provides an advanced forum for research findings in areas sustainability related to and sustainable development. Sustainability publishes original research articles, review articles and communications, I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
