submissions:

closed (31 December 2021)

Message from the Guest Editor

This Special Issue invites contributions on the use of both quantitative and qualitative methods in sustainability assessment problems. Naturally, the subject of assessment covers a wide range of initiatives, such as policies and plans, programs, projects, legal acts, specific practices, as well as emergent areas of sustainability such as digital or financial sustainability. Research focused on assessment theories and practical approaches at various levels of sustainability (global, national, sectoral, regional, enterprise, project, processes, and product) are especially appreciated.

Keywords

- sustainability assessment
- methods
- tools
- indexes
- frameworks
- quantitative and qualitative methods in sustainability assessment

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
