Message from the Guest Editor

The scope of this Special Issue in *Sustainability* is twofold: on the one side, it aims to provide a systematic review of practices and models in the current background of building design and urban planning; on the other side, it is intended to illustrate, discuss, and detect the major challenges in the adoption of sustainable practices and community-based models in the urban regeneration of our cities.

An inter-scalar, multidisciplinary approach is welcome, as buildings and open spaces have to be considered as a whole when it comes to urban sustainable regeneration.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
