# Water Quantity and Quality under Future Climate and Societal Scenarios

Guest Editors:

Dr. Carina da Conceição Mendes de Almeida

**Dr. Tiago Brito Ramos** 

Dr. Sílvia Catarina Peixeira Carvalho

Deadline for manuscript submissions:

closed (30 November 2021)

## **Message from the Guest Editors**

This Special Issue welcomes contributions such as original research articles, technical articles or reviews, focused on different themes such as, but not limited to:

## • Agriculture:

- decreasing irrigation application without compromising production—water use efficiency;
- fertilizers application optimization—water quality improvement;
- crops adaptation in order to not compromising production—water use efficiency;

## • Urban:

- flood forecast—modelling tools to alert population;
- inundation areas modelling—mitigation or adaptation measures;

## Land use:

- decreasing erosion and soil lost—water quality improvement;
- land use changes—water quantity and quality analyses; adaptation to climate change.

# **Message from the Editor-in-Chief**

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international Open Access journal which provides an advanced forum for research findings in areas sustainability related to and sustainable development. Sustainability publishes original research articles, review articles and communications, I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering and applications of sustainability-based measures and activities.

## **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
