**Dr. Shatha Qamhieh**

Department of Finance, Faculty of Economics and Social Sciences, An-Najah National University, Nablus, Palestine

Deadline for manuscript submissions:

**closed (28 February 2022)**

### **Message from the Guest Editors**

The COVID-19 pandemic has been deeply affecting all the aspects of human life, forcing us to re-organize daily activities and short–medium-term plans.

This Special Issue is specifically devoted to the assessment of sustainability from a socio-economic perspective. Indeed, to measure sustainability, statistical indicators should incorporate economic, social, environmental and governance aspects, which can be subsumed under the general umbrella of SDGs and the related targets and indicators. A key link between well-being and sustainability is visible in existing frameworks, such as the Swedish EQOs, which are directly related to the SDGs.

Scientists are being asked to produce research able to combine different country-specific well-being and economic objective measurements, and their time dynamic profile, into sustainable development measures.

The approach in the articles included in this Special Issue are also encouraged to be multidisciplinary and cross-sectoral, addressing how different disciplines and sectors can be brought together to develop inclusive sustainable well-being and economy in response to the pandemic.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
