

Dear Colleagues,

We are pleased to announce the winner of the *Toxics* 2020 Travel Award (800 Swiss Francs). The winner is Dr. Erin McCallum, a postdoctoral fellow at the Swedish University of Agricultural Sciences, Sweden.

TOXICS 2020 TRAVEL AWARD

Dr. McCallum's research focuses on the effects of municipal wastewater effluents and emerging anthropogenic pollutants, like pharmaceuticals, on freshwater organisms. Her work especially focuses on the effects of pollutants of animal behaviour, and she integrates across biological scales to include analytical chemistry, physiology, social behaviour, and interspecific interactions in her studies.

Congratulations to Dr. McCallum and thanks to all who applied.

Kind regards, *Toxics* Editorial Office
