(DSV), University of Trieste, 34127
Trieste, Italy

Prof. Dr. Maria Cristina Fossi

Department of Physical Earth
and Environmental Sciences,
University of Siena, 53100 Siena,
Italy

Dr. Cristina Panti

Department of Environmental,
Earth and Physical Sciences,
University of Siena, 53100 Siena,
Italy

Deadline for manuscript
submissions:

closed (20 January 2023)

Message from the Guest Editors

Nanoplastics are of potential concern because their size makes them capable of penetrating almost all biotic barriers and affecting organisms. Research on nanoplastics is important, and publication of recent advances could be useful in filling the significant gaps in knowledge so that stakeholders can make decisions and regulate their levels.

This Special Issue aims to publish recent results of studies focused on identifying methodological approaches to define environmental levels, to measure nanoplastics in samples without significant interferences by method, and to define effects on organisms in aquatic and terrestrial ecosystems. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but not be limited to) the following: original research papers, in vivo and in vitro studies, and in field activities and monitoring.

Message from the Editor-in-Chief

Toxics (ISSN 2305-6304) is an international, peer-reviewed, open access journal which provides an advanced forum for studies related to all aspects of toxic chemicals and materials. We aim to publish high quality work that furthers our understanding of the exposure, effects, and risks of chemicals and materials in humans and the natural environment as well as approaches to assess and/or manage the toxicological and ecotoxicological risks of chemicals and materials. Please consider publishing in *Toxics* when preparing your next paper.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), [CAPlus / SciFinder](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q1 (*Toxicology*) / CiteScore - Q2 (*Chemical Health and Safety*)
