Developmental Exposure to Environmental Contaminants

Guest Editors:

Dr. Kimberly Keil Stietz

Department of Comparative
Biosciences, School of Veterinary
Medicine, University of
Wisconsin-Madison, WI
53706, USA

Dr. Tracie Baker

Institute of Environmental Health
Sciences, Wayne State University,
Detroit, MI 48202, USA

Dr. Jessica Plavicki

Department of Pathology and
Laboratory Medicine, Brown
University, Providence, RI 02912,
USA

Deadline for manuscript
submissions:

closed (30 June 2022)

Message from the Guest Editors

We are pleased to invite you to contribute to this Special Issue which aims to explore a variety of topics in line with the aims and scope of *Toxics*. Specifically, topics related to the developmental effects of environmental contaminants and/or their metabolites on the molecular, cellular, tissue, organ, organ system or organism, including mechanisms of toxicity, metabolism, risk assessment and management, as well as multiple stressor impacts in the context of aging or disease progression following developmental exposures.

In this Special Issue, original research articles and reviews are welcome. Research areas may include, but is not limited to the following: developmental effects of environmental exposures using *in vitro*, *ex vivo*, or *in vivo* models, and fetal origins of adult disease models. This Special Issue may include developmental effects of emerging contaminants of concern, mixtures, metals, pesticides/herbicides, persistent organic pollutants, or particulate matter, to name a few.

We look forward to receiving your contributions.

Message from the Editor-in-Chief

Toxics (ISSN 2305-6304) is an international, peer-reviewed, open access journal which provides an advanced forum for studies related to all aspects of toxic chemicals and materials. We aim to publish high quality work that furthers our understanding of the exposure, effects, and risks of chemicals and materials in humans and the natural environment as well as approaches to assess and/or manage the toxicological and ecotoxicological risks of chemicals and materials. Please consider publishing in *Toxics* when preparing your next paper.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), [CAPus / SciFinder](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q1 (*Toxicology*) / CiteScore - Q2 (*Chemical Health and Safety*)
