2. Coordinating Research Centres (CRC), Innovation for Well-Being and Environment (I-WE), Università degli Studi di Milano, Milan, Italy

Deadline for manuscript submissions:

**closed (1 December 2021)**

### Message from the Guest Editor

Mycotoxins are one of the most relevant threats to human and animal health, and in most regions there is still a high risk of mycotoxin contamination. The globalization of the trade in agricultural commodities and the lack of legislative harmonization have contributed significantly to the discussion about the awareness of mycotoxins entering the feed and food supply chain.

Mycotoxins are difficult to eliminate, and the challenge is to minimize their effects. There is a great deal of information available on how to manage and mitigate them, but no silver bullet is available to tackle mycotoxin threats. The mycotoxin problem demands an integrated approach using innovative and improved pre- and post-harvest strategic actions that address the entire food and feed chain: from field to industries, traders, national storage systems, regulators, and relevant agencies.

## Editor-in-Chief

### **Prof. Dr. Jay Fox**

Department of Microbiology,  
University of Virginia,  
Charlottesville, VA, USA

## Message from the Editor-in-Chief

Toxinology is an incredibly diverse area of study, ranging from field surveys of environmental toxins to the study of toxin action at the molecular level. The editorial board and staff of *Toxins* are dedicated to providing a timely, peer-reviewed outlet for exciting, innovative primary research articles and concise, informative reviews from investigators in the myriad of disciplines contributing to our knowledge on toxins. We are committed to meeting the needs of the toxin research community by offering useful and timely reviews of all manuscripts submitted. Please consider *Toxins* when submitting your work for publication.

## Author Benefits

**Open Access:** free for readers, with **article processing charges (APC)** paid by authors or their institutions.

**High Visibility:** indexed within **Scopus**, **SCIE (Web of Science)**, **PubMed**, **MEDLINE**, **PMC**, **Embase**, **CAPLus / SciFinder**, **AGRIS**, and **other databases**.

**Journal Rank:** JCR - Q1 (*Toxicology*) / CiteScore - Q1 (*Toxicology*)
