

viruses

Dear Colleagues,

As Editor-in-Chief of *Viruses*, I am pleased to announce the recipient of the **2019 *Viruses* Young Investigator in Virology Prize: Dr. Jason McLellan**, the University of Texas at Austin, Austin, TX, USA. Dr. McLellan's research is focused on the structure and function of viral glycoproteins and the translation of basic information in this area to the development of therapeutic interventions. His work has led to significant advances in our understanding of broadly neutralizing antibody binding to the V1/V2 domain of the HIV-1 envelope glycoprotein the structural basis for neutralization of respiratory syncytial virus.

2019 VIRUSES YOUNG INVESTIGATOR WINNER

We would like to thank the Selection Committee members Drs. K. Andrew White, Craig McCormick, A. Lorena Passarelli, Anna Cliffe and Jamil S. Saad for their evaluation of candidates.

Congratulations to Dr. McLellan for winning this very competitive Young Investigator Prize.

Eric O. Freed, Ph.D.
Editor-in-Chief, *Viruses*
Director, HIV Dynamics and Replication Program
Center for Cancer Research
National Cancer Institute
Frederick, MD, USA

Viruses (ISSN 1999-4915) Impact Factor 3.761 (2017 Journal Citation Reports®). Please join the “*Viruses 2020 - Novel Concepts in Virology*” conference, Barcelona, 5–7 February 2020 (<https://viruses2020.sciforum.net/>).
